ENVIRONMENTAL PROTECTION AGENCY

[FRL-9946-44-OA]

Notification of Two Public

Teleconferences of the Science Advisory Board

Environmental Economics Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces two public teleconferences of the Environmental Economics Advisory Committee (EEAC) to review its draft report regarding the EPA's proposed methodology for updating its mortality risk valuation estimates for policy analysis.

DATES: The SAB Environmental Economics Advisory Committee will conduct public teleconferences on June 16 and June 17, 2016. Each of the teleconferences will begin at 1:00 p.m. and end at 5:00 p.m. (Eastern Time).

ADDRESSES: The teleconferences will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning the public teleconferences may contact Dr. Thomas Armitage, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office (1400R), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460; by telephone at (202) 564-2155 or via email armitage.thomas@epa.gov. General information concerning the EPA SAB can be found at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Environmental Economics Advisory Committee will hold two public teleconferences to discuss its draft report on the EPA's methodology for updating its mortality risk valuation estimates for policy analysis. The committee will provide advice to the Administrator through the chartered SAB.

The EPA's Office of Policy requested advice on proposed improvements to the Agency's methodology for estimating benefits associated with reduced risk of mortality. This methodology takes into account the amounts that individuals are willing to pay for

reductions in mortality risk. The resulting values are combined into an estimate known as the value of statistical life (VSL) which is used in regulatory benefit-cost analysis. The EPA also requested that the SAB review options for accounting for changes in the VSL over time as real income grows, known as income elasticity of willingness to pay. The EPA submitted the following documents to the SAB for review: (1) *Valuing Mortality Risk for Policy: a Meta-analytic Approach*, a white paper prepared by the EPA Office of Policy to describe the Agency's interpretation and application of SAB recommendations received in July 2011 regarding updates to the EPA's estimates of mortality risk valuation; (2) *The Effect of Income on the Value of Mortality and Morbidity Risk Reductions*, a report prepared for the EPA's Office of Air and Radiation on options for updating the Agency's recommended estimate for the income elasticity of the value of statistical life; and (3) *Recommended Income Elasticity and Income Growth Estimates: Technical Memorandum*, an EPA memorandum providing supplementary information to the report. The SAB Environmental Economics Advisory Committee met on March 7-8, 2016, to receive agency briefings, hear public comments, and deliberate on responses to the EPA charge questions (81 FR 4296-4297). The purpose of the teleconferences described in this notice is to discuss the committee's draft report with responses to the charge questions. The two committee teleconferences will be conducted as one complete meeting beginning on June 16, 2016 and continuing on June 17, 2016, if needed to complete agenda items. Additional information about this SAB advisory activity can be found at the following URL:

http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Valuing%20fatal%20risk%20for%20policy?OpenDocument .

Technical Contacts: Any technical questions concerning the EPA documents reviewed by the SAB should be directed to Dr. Nathalie Simon in the EPA's National Center for Environmental Economics, by telephone at (202) 566-2347 or by email at simon.nathalie@epa.gov.

Availability of Meeting Materials: Prior to the meeting, the teleconference agenda, draft committee report, and other materials will be available on the SAB website at <http://www.epa.gov/sab>.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Interested members of the public may submit relevant information on the topic of this advisory activity, and/or the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB committees and panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the DFO directly. Oral Statements: In general, individuals or groups requesting an oral presentation at the teleconference will be limited to three minutes. Interested parties wishing to provide comments should contact

Dr. Armitage, DFO, in writing (preferably via email) at the contact information noted above by June 9, 2016, to be placed on the list of public speakers for the meeting. Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by committee members, statements should be supplied to the DFO (preferably via email) at the contact information noted above by June 9, 2016. It is the SAB Staff Office general policy to post written comments on the web page for advisory meetings. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Armitage at the contact information provided above. To request accommodation of a disability, please contact Dr. Armitage preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.

Dated: May 9, 2016.

Thomas H. Brennan,

Deputy Director,

EPA Science Advisory Board Staff Office.
